## —▣ PROJECT DESCRIPTION

Complete website made from scratch on a Wix platform. Website will have database with wine information and dynamic pages that will pull the wine information from the database. Sorting and filtering option will be created to make everything user friendly. Style will be clean and professional with the modern touches.

Colour harmony should be bright. Design will have visuals and graphics that will follow the overall theme in order to be more unique and consistent across the pages. Some effects and animations will be added to make the website more dynamic and to enhance user experience.

I will start creating the website on my account and after everything is finished I will transfer it to your Wix account.

## —▣ OVERVIEW

- Website from scratch
- Custom and unique design
- Custom visuals (graphics, icons etc)
- Database with dynamic pages and filtering and sorting options
- Site responsiveness
